MOGOUYAN / COME TO THE TABLE.

Good food. A clearer frame.

This eight-page edition is a 2026 menu-design selection. Dish names come from the original 2021 menu records. It is not a current menu; prices and branch-specific offers have been intentionally omitted.

The food photography is original archival material. Complete compositions are preserved with proportional resizing and format conversion only. Food is not regenerated. Typography, colours, line graphics and layouts are new. AI-assisted mockups illustrate print and display concepts. Client adoption and production are unconfirmed.
